Workshop: Lighten Up, Loosen Up

Richard Stephens will emphasize the design principals he has learned over 35 years of experience as a commercial artist and award winning watercolorist. Using clear descriptive graphics and examples, he will demonstrate one complete painting per day explaining the process as it happens, emphasizing the WHY as much as the HOW. Students will then work on their own paintings using the techniques he will teach us about the creative use of the "tools" of watercolor such as brush choice and manipulation, color mixing and finishing paintings quickly. There is always a strong emphasis on the elements and principals of design.

Richard Stephens has a true passion for watercolor and his workshops are informative, challenging and fun. He has been featured in *SPLASH* and *The Art of Watercolor* numerous times.
